He has been involved in over 3,500 lawsuits. Many of these he loses or settles. He has been in court many many times before.

Why do you think he was willing to destroy our democracy just to hold onto power, because he knew this was all coming his way as soon as he got kicked out. With as much stress and anxiety as he caused us over the last 4 years, it's gonna be nice seeing his house of cards crumble.

If only it were true. But anybody who's got eyes knows that nothing is going to come out of it. It's like he's fucking magical. Nothing touches him. He's the reason I don't believe in justice anymore.

He's living proof that karma doesn't exist .

I feel for you ma'am.
